Simple Service Providers – Deliverable

Project management

Project summary

Please write a summary of your project (500 words maximum)

Project progress

Please highlight the main project activities in each of the three months of project implementation (600 words maximum)

Month 1 -

Month 2 -

Month 3 -

Platform

Integration

Briefly describe the process of integrating your service into the dRural platform. Did you encounter any difficulties? If so, please describe them. (300 words maximum)

Functionality

Briefly describe any shortcomings you have encountered within the dRural platform. Do you have any suggestions on how to improve the functionality of the platform? Did you encounter any bugs within the platform? If you have, please describe them. (500 words maximum)

Business

Promotion

Briefly describe the promotional strategy you have used in order to attract existing and new customers to the dRural platform (300 words maximum)

Commercial Traction

Briefly describe how using the dRural platform in your regular business activities has influenced your turnover (you don't need to insert the exact figures, only explain the effect). Have you experienced an increase in your customer base? (500 words maximum)

Time management

Describe how providing your service within the dRural marketplace has affected time management in your business. Which activities have been simplified for you (such as booking, management of payments etc)? (300 words maximum)

Other benefits

What other benefits have you enjoyed from being a part of the dRural ecosystem? (300 words maximum)

Impact and sustainability

Impact

Describe how the provision of your service within the designated arena has improved the quality of life within your Regional Demonstrator. Have you acknowledged any beneficial differences in the way your service was provided (such as decreased waiting times)? (500 words maximum)

Dissemination

Have you attended any events where you presented your solution? If so, please list them and briefly explain what you presented and add photos if you would like to share them. (300 words maximum)

Next steps

Please outline your short-term business plan for the upcoming 6 months. How will you ensure the long-term availability of your service in the marketplace? Highlight the main differences compared to the initial sustainability plan presented in the Open Call Application. (500 words maximum)

Ethics

Ethics and data protection issues

How effectively were the ethics and data protection issues identified (if any) during the screening process handled? What worked? What didn't? What could have been improved? (500 words maximum)

Additional issues

Have any issues arisen during implementation that were either not present, or not identified, during the screening process? How were such issues addressed? (500 words maximum)

Lessons learned

Reflecting on your project as a whole, from application to implementation to final deliverable, what lessons can be learned for ethics and data protection in dRural? (500 words maximum)
