Does the application involve clinical trials of ICT implants? (Y/N)	
<b>I CONFIRM THAT NONE OF THE ABOVE ISSUES APPLY TO MY APPLICATION</b>	YES/NO

Have you identified any other potential ethical risks within your application? If so, please present them and the suggested means of risk management:

## 1.1. Ethics

If you have entered any ethics issues in the ethical issue table, you must:

- submit an ethics self-assessment, which:
  - describes how the application meets the national legal and ethical requirements of the country or countries where the tasks raising ethical issues are to be carried out;
  - explains in detail how you intend to address the issues in the ethical issues table, in particular as regards:
    - research objectives (e.g. study of vulnerable populations, dual use, etc.)
    - research methodology (e.g. clinical trials, involvement of children and related consent procedures, protection of any data collected, etc.)

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 101017304.

- the potential impact of the research (e.g. dual use issues, environmental damage, stigmatization of particular social groups, political or financial retaliation, benefit sharing, malevolent use, etc.).
- provide the documents that you need under national law (if you already have them), e.g.:
  - an ethics committee opinion;
  - the document notifying activities raising ethical issues or authorizing such activities

If these documents are not in English, you must also submit an English summary of them (containing, if available, the conclusions of the committee or authority concerned).

If you plan to request these documents specifically for the project you are proposing, your request must contain an explicit reference to the project title.

## 1.2. Security

Please indicate if your project will involve:

- Activities or results raising security issues: (YES/NO)
- 'EU-classified information' as background or results: (YES/NO)
- Any potential "dual use" of results: (YES/NO)

Have you identified any other potential security risks within your application? If so, please present them and the suggested means of risk management:
