

Gelderland Midden, Netherlands

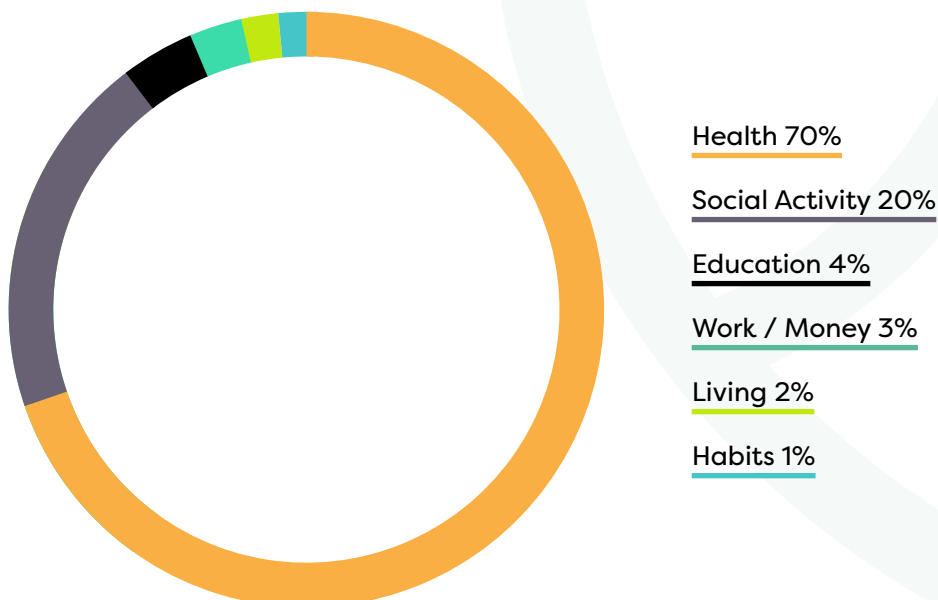

About the region

Some of the primary issues of Gelderland Midden is the lack of awareness and accessibility of social and welfare services and is the fragmented coordination among healthcare, social, and welfare services. Here, the dRural platform has enhanced the visibility and accessibility of services, and facilitated better collaboration among service providers, ensuring comprehensive and coordinated care. The arenas fostered by dRural include physical activity, mental well-being, nutrition, social engagement, and financial advice.

PARTNERS INVOLVED:

- Health Valley
- Rijnstate
- Gemeente Lingewaard
- SWL
- Pact Care

The platform offers 117 services across 13 health and well-being categories. These services are provided by a network of over 25 different providers in the region.
